

**IMMEDIATE RELEASE**  
**RON TAYLOR CRAZY LOVE JAZZ RELEASE PARTY**

CLM Productions is proud to present Ron Taylor's debut album, ***Crazy Love Jazz***. Please join us at The Havana Club in Buckhead on May 10th from 7:30PM to 9:30 PM to experience ***Crazy Love Jazz***.

A bottle of fine wine, a precious stone, and ***Crazy Love Jazz*** CD all have one essential element in common, time. It took decades of practice, studio and stage time for prolific jazz trumpeter, **Ron Taylor**, to bring us his debut CD, ***Crazy Love Jazz***. Just released on CLM, a new indy label, this is a celebration of Ron's diverse musical experiences and exposure. Having performed with top artists of varying genres from Art Blakely, Lionel Hampton and Eartha Kitt to Peter Tosh, Byron Lee and Mighty Sparrow, Ron was ready for this.

After years writing, arranging and perfecting his vision, Ron called on some of the best in the business to help him make music. **Professor Gary Motley** renowned jazz pianists; "*High energy*" drummer **Kinah Boto**; Grammy nominated trombonist, **Bob Lewis**, legendary American jazz bassist **Neal Starkey**; seasoned percussionists **Emrah Kotan** and **Broderick Santiago** and renowned trombonist **Clifton Anderson** are just some of the musicians who are apart of the ***Crazy Love Jazz*** experience. The beauty of this album is the flow. The mosaic of sounds and styles is seamless.

The energy in "*Once Is Not is Enough*" climbs from one solo to the next till BAM! Red Hot!. But then Ron takes it down a notch with old school Motown style; feel da' funk on "*After All These Years*." "*For Heather*," on the other hand is lyrical, melodic, sweet; a real ladies delight. "*It Just Happened*," this is not Jazz 101. This song is raw, real, complex, crazy; makes you ask "what just happened?" One of the producer's secret picks - "*Sheila*." This jam is exotic. Samba, Bossa Nova, Funky, Bebop, a page out of Ron's book of world travels to the Caribbean, Africa and Asia. "*Unsung Heroes*" well, the title and the colors of this song says it all. Finally, "*Moonlight In Vermont*" is the song that makes you wanna pop open that bottle of vintage wine and if you're not careful even 'pop the question.' Yes, its that romantic. So as Ron says, "... *some call it crazy, some call it love, but in the end, it's all jazz.*" ***Crazy Love Jazz*** by Ron Taylor, well worth the wait.
